SUMMARY

I'm a highly dedicated junior frontend developer with proven project experience and a desire to impact a business positively.

My personal projects show my creative edge and understanding of Angular concepts whilst displaying my ability to create a single-page application from concept to deployment and use version control throughout the process with Git.

Whilst I lack commercial experience, I'm a fast learner with a genuine passion for software development. I've elevated my Angular skillset through self-study and interacted with complex concepts like NgRx, creating dynamic components and RxJs.

I achieved a First Class Computer Science Bachelor's Degree in 2017, but I pursued a different path; however, nothing matched the satisfaction of fixing coding problems and the creative outlet provided by writing code.

I want to build towards being an expert frontend developer. I'm also open to a potential path into full-stack development.

I'm keen to begin a career at a company where I can implement what I've learnt whilst facilitating my growth and further learning in a role providing exciting challenges to overcome in a positive work environment.

SKILLS

Languages: HTML, TypeScript, CSS/SCSS/SASS, JavaScript, PHP.

Frameworks and Libraries: Angular 8+, NgRx, RxJS, jQuery, Angular Material, Bootstrap.

Tools and Databases: Firebase, Visual Studio Code, Github, REST API, Unit Testing, WordPress, mySQL, Photoshop, Postman, GIMP, CMS, Laragon, Unity Engine, FileZilla, Sony Vegas Pro 14, Augmented Reality.

PROJECTS

Angular Film Tracking Application - ng-flixible.web.app

- Developed an Angular application that allows users to view film details, set films to custom user lists, with access to a favourites and watched list.
- Managed the state of the application with NgRx Actions, Reducers and Effects.
- Integrated TMDB API to integrate an asynchronous Search bar, get film data requests, and store them for custom user lists.
- Login/Register system using NgRx and Firebase Auth.
- Users film data fetched and stored into a Firebase Realtime Database.
- Included lazy loading throughout the application to aid separation of concerns and load modules as they're required.
- Mobile responsive UX using Media Queries to handle different breakpoints.

Skills Used: Angular 13, TypeScript, NgRx, Angular Material, SASS and Firebase.

Angular CRUD Recipe Book Application - ng-course-recipe-book-4243a.web.app

- Developed an Angular CRUD application that lets users create, view, delete and edit recipes and an ingredient list.
- Managed the state of the application with NgRx Actions, Reducers and Effects.
- The entire application is lazy loaded.
- Login/Register system using NgRx and Firebase Auth.
- Recipe data fetched and stored into a Firebase Realtime Database.
- Mobile responsive UX using Bootstrap breakpoints to handle different screen sizes.

Skills Used: Angular 11, TypeScript, NgRx, Firebase, CSS and Bootstrap.

EXPERIENCE

Wordpress Site Manager - Vitz Ltd, vitzltd.co.uk

AUGUST 2020 - PRESENT

- Created 2 Wordpress websites to achieve online sales for a startup business and establish an online focus.
- Liaised with the CEO to build and deploy a website matching the requirements and making changes when asked.
- Overhauled the first Wordpress website to a new, modern, interactive design matching the company branding.
- The initial website design had a target of 100 visitors and could only achieve 60% of this over six months.
- After my redesign, we had a target of 1000 visitors, which was exceeded by a significant margin at 460% or 5609 visitors that year.
- This year, the website has achieved 56% of 2021's traffic within a single month; therefore, growth is continuous.

EDUCATION

First Class BSc (Hons) Computer Science - University of Westminster, London

SEPTEMBER 2014 - JULY 2017

- 1st year (72%), 2nd year (73%), 3rd year (75%).
- First Year and Second Year Dean's List Member for achieving above 70% total average results.
- Member of Gaming society.

CERTIFICATES

Udemy - Angular – The Complete Guide (2022 Edition)

NOVEMBER 2021

Link to certificate of completion: www.udemy.com/certificate/UC-45db3d4a-bba2-46df-a78d-6fbb92d7a257
